

2019/08/20 - Yet Another Update

Still working on the practice animation scene. I'm further along now. One thing I'm starting to realize with that scene is the cuts. There are some unnatural cuts that break up the action of the scene. They were done to insert the reactions of the actors. But when I'm trying to translate that into one continuous scene, the pauses feel unnatural, so I have to keep adding some actions to smooth the transitions.
